Dear Hiring Manager,

I am writing to express my interest in software engineering and mobile app development opportunities within your organization. As a software engineering student with a strong passion for creating innovative solutions, I believe I could make a valuable contribution to your projects.

I am currently pursuing a Bachelor's degree in Software Engineering with a focus on Software Design and Web Development at Brigham Young University - Idaho. Through my coursework and personal projects, I have gained experience in web development, object-oriented programming, mobile app development, and database management. I am eager to apply and expand these skills in a professional setting.

What sets me apart is my resilience and proactiveness. In team projects, I take the lead and encourage collaboration, and I am not afraid to take on new challenges. I believe in continuous self-improvement and strive for excellence in all that I do.

I have attached my resume for your review, which provides further details on my education, work history, and technical skills. I would welcome the opportunity to discuss how my skills and experience align with your organization's needs. Please feel free to contact me at your earliest convenience via email or phone.

Thank you for considering my application.

Sincerely,

Carlos Lespin
