Skills

- Proficient Python, C++, SQL, Flutter.
- Experience in HTML, CSS, JavaScript, NodeJS, & NoSQL DBs..
- Disciplined, fast learner, and good at communicating.
- Fluent in Spanish and English.

Education

Brigham Young University - Idaho / Software Engineering BS
Jan 2020 - PRESENT, Rexburg, ID

Currently studying Software Engineering with a concentration on Software Design which encompasses the following topics: efficiency metrics, modularization, encapsulation, design patterns, relation diagrams (UML, DFD, etc..), and unit testing.

Ana D. Flores Santana Vocational School / Architectural Drafting
Aug 2014 - Jun 2016, Puerto Rico

Graduated from an industrial school, studying architectural drafting. I designed the structural work for homes, consisting of hand-drafting designs, building scale models, sketching electrical/plumbing layouts, and using programs like AutoCAD and SketchUp to create 3D-rendered models of properties.

Employment

BYU - Pathway / Technical Support - Degree Planner Team
Aug 2021 - Sept 2022, Salt Lake City, Utah

Part of a specialized team in charge of troubleshooting the institution's software for planning students' semesters. The role included communicating with students about issues in their planners, troubleshooting bugs in the system, and working alongside Technical Support to report these bugs to the Developers.

Westgate Resorts & BlueGreen Vacations / Sales Representative
May 2019 - Jan 2020, Orlando, FL

I worked as a sales representative for resorts in central Florida; my position consisted of giving presentations to families who'd be interested in our various vacation programs, showing them properties, finding their needs, and extensively negotiating with them on prices.
